Appendix V.	Deposits and Processing Statistics	p. 20

I. MISSION STATEMENT

The Southern Regional Library Facility (SRLF) serves UC libraries and their users by:

- *providing compact storage, security and environmental protection for little used and rare library materials;
- *insuring access through accurate bibliographic information and location notes for these materials in on-line catalogs; and
- *rapidly retrieving materials when requested.

A knowledgeable and skilled staff provide these services using efficient and innovative technology.

II. SUMMARY

The year 1994/95 is notable in many ways. Within the first few days, the much awaited Phase 2 Project began. This \$14.7 million project to add 88,472 assignable square feet of storage could potentially have been very disruptive to SRLF operations. Fortunately this has not been the case. Capital Programs staff and the General Contractor have worked hard to keep noise, dust, and disruptions to a minimum, and for the most part they have succeeded.

Meanwhile, the SRLF further diversified its services to libraries and individuals. Special projects for campus deposits have been incorporated and several are scheduled for the coming year. Two projects were successfully completed in 94/95: the Morris Kight collection of personal papers and memorabilia were received, sorted, boxed and inventoried for UCLA Special Collections. For UCLA's Public Affairs Service, local processing of holdings fields and limited editing of bibliographic fields were performed by SRLF processors on a collection of U.S. Congressional hearings. Both projects enabled campus libraries to make deposits that otherwise would have been deferred due to shortages of staff and other resources.

In Public Services, document delivery services were expanded to include ORION Express and MELVYL Request, both of which allow users to submit requests directly to the SRLF. ILL service to non-UC libraries has also been incorporated, following the acceptance and approval from other UC ILL units. Requests from non-UC libraries and from individual borrowers totalled 2,379 in 1994/95. This number will no doubt increase rapidly in the coming years.

These new services were provided without adversely impacting service to our primary clientele. In 1994/95 **139,902** new deposits were received; **151,324** new items were added to the collections; and **104,157** requests were filled.

III. SIGNIFICANT EVENTS AND ACCOMPLISHMENTS

1. New Receipts: the SRLF received 139,902 new deposits from the five southern UC campuses in 1994/95.
2. Items processed and items added: 151,324 new items were added to the collections. In addition, 12,751 items were reprocessed (as in assigning new barcode numbers to move UCI archival dissertations from the regular stacks to special collections level, and reprocessing boxes in manuscript and archive collections as these are resorted, weeded, and recataloged). Overall, 177,102 items were processed; this figure includes the new items added, items reprocessed, and problems returned to the campuses.
3. Paging Requests: the SRLF filled 104,157 paging requests in 1994/95. This is an increase of 10% over the previous year.

Non-returnables accounted for 2,554 filled requests, a remarkable 123 % increase over last year. Of this total, 29% of the non-returnables were filled by Ariel, 2% by fax, and 69% by photocopy.
4. In May, 1994, the SRLF Phase 2 construction project was awarded to the Ray Wilson Company, General Contractor. The project began on July 5, 1994 and is scheduled for completion on December 8, 1995. (July 1994)
5. For the fourth summer in a row, the SRLF participated in the federally funded City of Los Angeles Summer Youth Project by employing six inter-city youths for an eight week period. SRLF staff mentored and taught the youth good work habits and a variety of computer skills. (July - August 1994)
6. SRLF managers participate in the UCLA Public Affairs Service/Map Library merger process. The merged units are now known as Maps and Government Information. SRLF managers provided input and advice on advisory committees for moving and processing PAS and Map Library collections. (July - October 1994)
7. A select team of processors finish the special project for Maps and Government Information library (formerly the Public Affairs Service). In this project, dubbed Operation Congress, SRLF was given temporary and limited cataloging authorization to add location fields and to make corrections in other limited bibliographic fields on the ORION record. The processing of these hearings on average took 33% more time than regular deposits, but the project enabled MGI to quickly move ca. 9,500 U.S. Congressional hearings to the SRLF. Begun in January 1994, the project was completed in the Fall Quarter of 1994. (July - October 1994)

8. SRLF implements billing procedures for on-site users. Book replacement bills were produced and issued to users. Backlogs for billing to on-site users have been eliminated. (August 1994)
9. Public Service staff participated with UCLA's Circulation Advisory Committee on the implementation of Extended Services to Borrowers (ESB). ESB allows borrowers, both on site and at remote locations (such as other UC ILL units), to view their own borrowing records and to self renew. (September 1994)
10. SRLF and Film & Television Archive staff begin joint effort to plan and implement the move and transfer of Archive holdings to the SRLF Phase 2. Two advisory committees are formed: Technical Processing and Move and Retrievals. Initial meetings of both committees began with tours and orientation to the Film and Television Archives at Television Center in Hollywood. Subsequent meetings of both groups followed during the Fall quarter.

The work of the Technical Processing committee included a list of SRLF and FATA specifications for ORION2. Further work has been deferred until ORION2 selection and implementation begins in the later part of 1995/96. The advisory committee on Move and Retrievals has prepared two scenarios (a four month and a seven month move) and cost projections for staff, equipment and vehicles. The committee will continue its work through 1995/96. (August -December 1994)

11. Special collections material from CSUN, stored temporarily at the SRLF following the January 1994 earthquake, are retrieved and returned to the Northridge campus. (September 1994)
12. Administrative staff receive training on the PAC (Purchasing and Accounts Payable) system, enabling the department to place orders and submit check requests online. Implementation and full conversion from paper forms to the online system takes place in October. (September - October 1994)
13. SRLF managers begin the process of organization and authorizations for EDB implementation: the campus online system for personnel, payroll, and benefits. Following security and policy training by AIS (Administrative Information System), the SRLF infrastructure of preparers and reviewers was established and approved by campus administration. (October 1994)
14. The final 5,271 volumes in the X barcode collection (duplicate deposits) are reprocessed and integrated into the general collection. This long-standing project to re-barcode 70,000 duplicates was undertaken several years ago when processing guidelines for duplicate deposits were streamlined. (October 1994)

15. The SRLF received and began processing the first "special project" deposit: the Morris Kight Collection from UCLA's Special Collections Department. This project involved the sorting, boxing, and labelling of personal papers and literary materials in the Kight archive. (October 1994)
16. Administrative staff receive hands-on training in the EDB online system, followed by a successful implementation. Personnel, payroll and benefit actions and updates are now performed online, affecting immediate response and changes for employee actions. (November - December 1994)
17. SRLF managers and staff participate in the ORION2 Vendor demonstrations. Public service and technical service concerns of the SRLF are represented and incorporated into the questions/answer sessions at these vendor demonstrations. (March 1995)
18. Job descriptions for two positions in the Public Service section are reviewed and re-written. Randy Ades, reclassified to a Library Assistant II, now concentrates on Special Collection paging, overdue notices, holds, replacement bills and fines. Keith Rideau, also a Library Assistant II, concentrates on processing non-returnables, document delivery (including invoicing), and serves as backup to Jon Edmondson, the ILL section head. (March - April 1995)
19. In an effort to measure workloads and staffing needs within functional areas, an in-house time assessment study was conducted. Staff recorded hours spent in key assignments: processing new deposits, MELVYL searching, paging, document delivery, stack maintenance, circulation (e.g., charge outs and discharge), billing, and information desk. The numbers gathered in this study will be analyzed and compared to actual staff assignments, with the expectation that staffing requirements can be better defined to meet department goals. (April 1995)
20. A collection of 2,837 UCI archival dissertations were reprocessed. Originally shelved in the general collection at SRLF, barcodes were removed and swapped to other new deposits. The UCI dissertations were then given new barcode labels and relocated to the Special Collections level. (May 1995)
21. The SRLF Preservation Microfilm Task Force begins work to study the proposal for transferring UCLA's preservation microfilm operation from Library Reprographic Services to the SRLF. At the directive of the SRL Board, the Task Force will identify concerns and requirements for moving this operation to the SRLF. (June 1995)

22. SRLF staff completed the return of UCLA Special Collections materials that were temporarily stored at the Facility following shelving damage from the 1994 Northridge earthquake. A total of 80,000 volumes were moved back to newly installed movable compact shelving in the University Research Library.

During the last year, SRLF staff filled over 2,500 paging requests from this collection, a workload that is not reflected in paging statistics. Storage and retrievals of this collection were provided at no cost; the staff and vehicle expenses for moving the collection will be reimbursed with FEMA funds. (January - June 1995)

23. As of June 30, 1995 14,000 reels of master negative microfilm from UC Berkeley have been barcoded, received and stored at the SRLF. Gladis and MELVYL records have been updated by UCB staff to reflect SRLF location. SRLF staff will eventually create inventory records on ORION2. In the meantime, access is provided by Gladis and MELVYL records only.

24. Incentive Awards were received for individual and team achievements by the following SRLF staff: Randy Ades, Claire Bellanti, Bob Freel, Antigone Kutay, Steve Kutay, Keith Rideau, and Mark Taylor. (June 1995)

25. On a cost recovery basis, staff moved a 6,000 volume gift from the Los Angeles County Law Library to the SRLF. These volumes are a permanent deposit for the UCLA Law Library, and will be processed as part of a "special project" in 1995/96. (June 1995)

IV. GOALS AND STRATEGIES FOR 1995/96

1. Review previously defined goals and action plans, evaluate their effectiveness, and incorporate new goals through strategic planning and group process.
2. Develop a strategic plan to add, upgrade and replace equipment to meet the changing needs for existing and future services. Future requirements include workstations for each staff member; replacing staff and public terminals with LAN-connected workstations; providing the necessary wiring and power supplies to support all stations; and building internal expertise and support mechanisms through the training of staff to ensure fully functioning systems within the SRLF.
3. Mount the SRLF HomePage for world-wide access and provide links to the UCLA Library HomePage, Info UCLA, and other UC libraries.
4. Process 160,000 new deposits, including 37,200 volumes in special projects that are scheduled for UCLA, UCSD and UCSB libraries.
5. Launch a new era in SRLF processing with implementation of SRLF processing on the local campus systems. First two implementations will include SRLF connections to UCSB's Pegasus system for a minimal cataloging project, and SRLF connections to UCSD's Roger system for location and holdings updates of existing records.

Staff from UCSD and UCSB will come to the SRLF in order to train staff for creating and editing records on Pegasus and Roger. Access to both systems will be established with telnet connections via MELVYL.

6. Develop training and implementation plans for transfer of the preservation microfilming operation from Library Reprographic Services to the SRLF. Key elements to be identified and provided are work space and facilities for filming and processing functions, staff training, and quality control mechanisms. Following successful implementation, incorporate calls for preservation microfilming jobs along with the annual call for new deposits.
7. Complete the procedures and documentation for the processing of preservation microfilm deposits into the SRLF, including the transfer and processing of UCLA master negative reels to the SRLF. Master negative reels from other southern UC campuses will be deposited at the SRLF; printing negative reels from UCLA will be deposited at the SRLF.
8. Prepare for the completion and opening of SRLF Phase 2. Prior to occupancy, coordinate with Capital Programs, Campus Facilities, and the General Contractor the testing and debugging of fire suppression and security systems. Under the authorization of Capital Programs staff, place orders for Phase 2 equipment and

V. CON coordinate the shipment, receipt, and installations to coincide with beneficial occupancy of Phase 2.

9. Move the core collections from UCLA's Film and Television Archives into the SRLF Phase 2.
10. Provide moving and transfer services to UC campus libraries, including UCLA Law Library, UCLA Special Collections, UCLA Gifts section, and the UCI Main Library. These relocation services are provided on a cost recovery basis for projects that are not permanent deposits to the SRLF and for collections not located at a UC campus.
11. Continue to develop fee based services for Document Delivery, including deliveries direct to individuals' homes and offices.
12. Begin accepting credit card payments for document delivery services.
13. Update and reprint the SRLF Brochure to reflect service changes, to feature document delivery services, and to incorporate Phase 2 information on space and storage capacity.
14. Incorporate four special projects into the processing stream:
 - a. UCLA Geography Map Collection: create finding aid in database format, barcode the individual maps, and add items to the collection level ORION record. (Twenty hours of student time; accepted before "special projects call" went out.)
 - b. UCLA Law Library: key temporary serial records into ORION and add item barcodes.
 - c. UCSB Nikic Collection: key minimal cataloging records into Pegasus; after Pegasus records have loaded into MELVYL, perform routine SRLF processing and updating of the MELVYL record.
 - d. UCSD Stack Annex: update location information on Roger and then perform routine SRLF processing and updating of the MELVYL record.
15. Relocate collections within SRLF Phase 1 and Phase 2:
 - . Move Geography map collection into Phase 2 Level B
 - . Shift extra large special collections boxes from Phase 1 into Phase 2 oversize shelving area
 - . Move master negative and printing negative microfilm into Phase 2 vault
 - . Move newspaper bundles from Phase 1 into Phase 2 Level B
16. Further enhance the existing barcode label inventory on Excel 5. Write new programs and update macros in order to provide more robust performance in generating reports on usage and purchase order projections.

V. CONCERNS FOR OPERATIONS

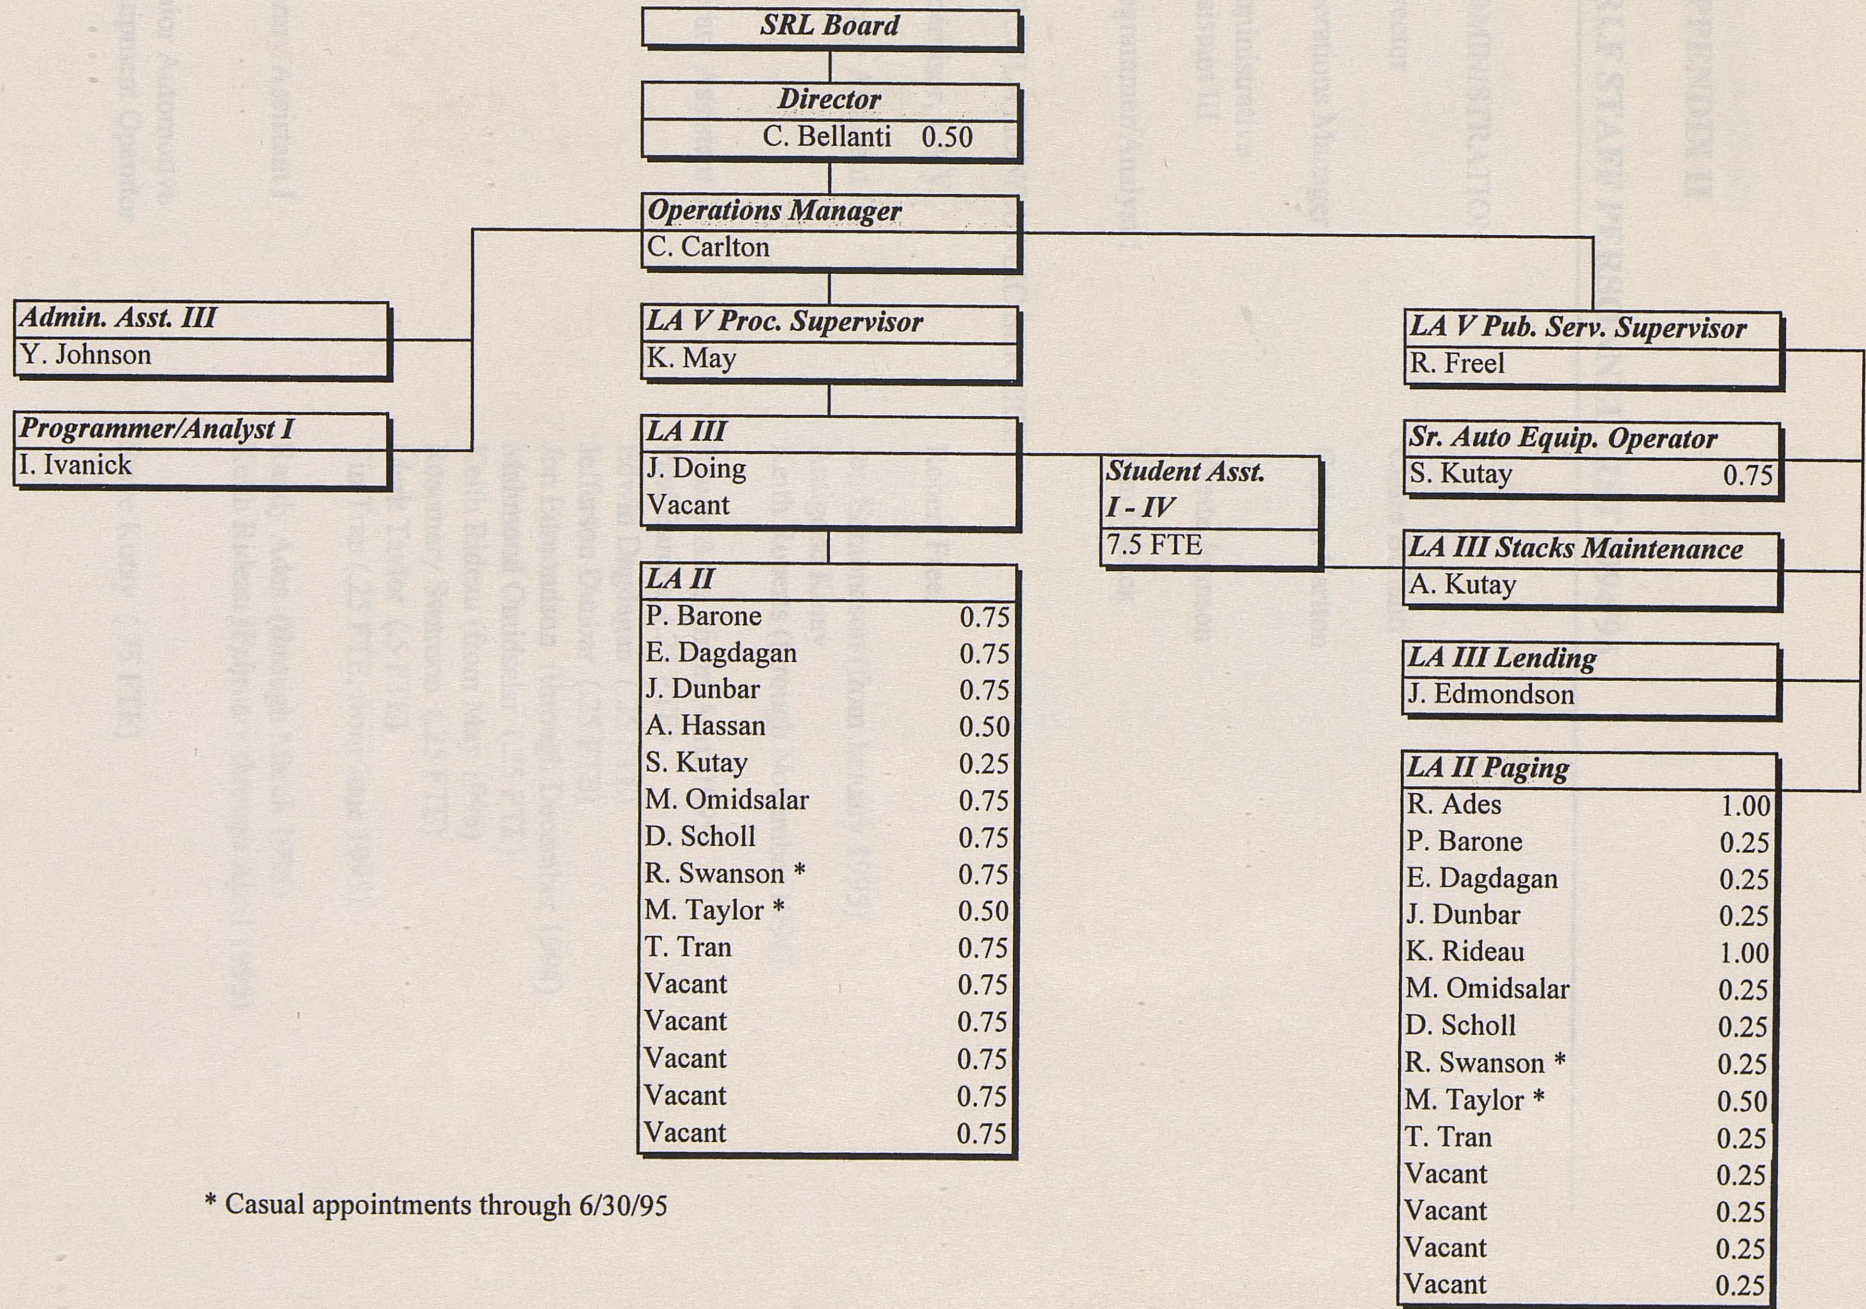

1. Prepare for the implementation of ORION2 and the phase out of ORION1.

SRLF managers have participated on various advisory groups, providing important details on specifications for technical processing and circulation/ILL functions. But until a vendor and product have been selected, the question remains "how will UCLA's new system meet the unique needs of the SRLF and the Film and Television Archives (FATA)?" Vendor demonstrations last March offered us a look at many new possibilities and solutions. Existing ORION files for SRLF and FATA differ significantly from other files, and currently these two files are entirely separate from one another. When Phase 2 opens, the core of the FATA collections will be transferred to the SRLF and staff in each location will need access to the materials in an online environment. The new ORION system will hopefully provide this access. In an effort to see that it does, SRLF staff will continue their involvement in ORION2.

2. Continue to prepare for future equipment needs.

In order to continue upgrading equipment and purchasing new equipment for new services, the SRLF will need to plan carefully and work within the limited budget allocations for supplies and equipment. In 1993/94, eight new Gateway workstations were purchased at year's end (with invoices paid in 1994/95). The 1995/96 budget has an allocation for two more new workstations and for four new, larger color monitors. From income funds, a new and faster scanner will be purchased to enhance Ariel performance. However, with the new ORION system looming ahead, more workstations and file server hard drive upgrades are needed. Strategic planning and careful budget analysis by the department will be an on-going effort; as needed, managers will consult with Library Information Systems staff when selecting hardware and software upgrades; and long range plans will be articulated so that income funds can be used wisely to support these equipment needs.

Southern Regional Library Facility
Organizational Chart - June 30, 1995

* Casual appointments through 6/30/95

APPENDIX II

SRLF STAFF PERSONNEL LIST 1994/95

ADMINISTRATION

Director	Claire Bellanti
Operations Manager	Colleen Carlton
Administrative Assistant III	Yvette Johnson
Programmer/Analyst I	Ivan Ivanick

CIRCULATION/PUBLIC SERVICE

Supervisor, LA V	Robert Freel
Library Assistant III	Jon Edmondson (from January 1995) Antigone Kutay Keith Roberts (through November 1994)
Library Assistant II	Randy Ades (from April 1995) Paul Barone (.25 FTE) Edwin Dagdagan (.25 FTE) Jefferson Dunbar (.25 FTE) Jon Edmondson (through December 1994) Mahmoud Omidasalar (.25 FTE) Keith Rideau (from May 1995) Rosemary Swanson (.25 FTE) Mark Taylor (.5 FTE) Tin Tran (.25 FTE, from June 1995)
Library Assistant I	Randy Ades (through March 1995) Keith Rideau (February through April 1995)
Senior Automotive Equipment Operator	Steve Kutay (.75 FTE)

Student Assistants
(Assts. 1-4, LA I)

7.5 FTE

STAFF DEVELOPMENT ACTIVITIES

PROCESSING

Supervisor, LA V

Karen May

Library Assistant III

John Doing

Library Assistant II

Paul Barone (.75 FTE)
Edwin Dagdagan (.75 FTE)
Jefferson Dunbar (.75 FTE)
Ali Hassan (.5 FTE)
Steve Kutay (.25 FTE)
Mahmoud Omidzalar (.75 FTE)
David Scholl (.75 FTE)
Rosemary Swanson (.75 FTE)
Mark Taylor (.5 FTE)
Tin Tran (.75 FTE, from June 1995)

Student Assistants
(Assistant 3-4)

.5 FTE

APPENDIX III

STAFF DEVELOPMENT ACTIVITIES

The following In-Service classes were held at the SRLF and attended by staff:

College Reference Librarian, Teresa Portilla Omidsalar, presented a two hour workshop on Reference Interview Techniques and Neutral Questioning Techniques to SRLF Public Service staff.

Occupational Health and Safety Therapist, Arlin Low, presented a two hour workshop on back safety.

Randy Ades

In Service Classes:
Excel, Levels 1-3
Introduction of LANs

UCLA Library Staff Association, Board Member

Paul Barone

In Service Classes:
Excel, Level 1

Claire Bellanti

Library Standing and Ad Hoc Committees:
Campbell Book Competition Committee, Past Chair
Public Information Kiosk Planning Committee, Chair
ORION Vendor Scan Advisory Committee, Member
UCOL, HOPS ILL Subcommittee, Member
Access Services Forum, Liaison to PSC
Circulation Advisory Committee, Liaison to PSC

UCLA Service Committees and Memberships:
Staff Affirmative Action Training Program Screening Committee,
Member

National Committees:
ALA/LAMA Library Storage Discussion Group, Member
ALA/BES Buildings for Colleges and University Libraries
Committee, Member

- C. Bellanti, Cont'd. Programs and Seminars:
 ALA Video Conference on Customer Service
 "ADAPT-IT" Email workshop on adaptive technology from
 EASI (Equal Access to Software Information) and the
 Rochester Institute of Technology
 Power Point Class
- Colleen Carlton UCLA Library Reclassification Committee, Member
 ALA/LAMA, Member
- In Service Classes:
 Excel, Level 1
 Building Personal Credibility
 World Wide Web: Navigating the WEB
 ALA Video Conference on Customer Service
- John Doing In Service Classes:
 Excel, Level 1
 Training for Trainers
- Jefferson Dunbar In Service Classes:
 Excel, Level 1
- Jon Edmondson In Service Classes:
 Excel, Levels 1-2
- Robert Freel UCLA Library ILDAC Committee, Member
 ALA/LAMA, Member
 ORION2 Advisory Committee (Circulation & ILL)
- In Service Classes & Special Programs:
 Video Conference OCLC Electronic Libraries
 Elements of Disaster First Aid
 WWW & HTML
- Ali Hassan In Service Classes:
 Excel, Levels 1-3
 WordPerfect for Windows, Levels 1-2

- Ivan Ivanick Public Information Kiosk Planning Committee, Member
- Society for Applied Learning Technology : Spring Conference
 (Orlando, FL)
 "Internet World" Meckler Media Conference
 Disabilities and Computing Workshop
- Yvette Johnson In Service Classes:
 Personal Safety Clinic for Women
- Karen May In Service Classes:
 Excel, Levels 1-2
 Introduction to World Wide Web
- ORION2 Advisory Committee (Technical Services)
 CLA Convention
 Preservation Intensive Institute Program: Preservation of Moving
 Images
 LSA Tour: Los Angeles Public Library
- Antigone Kutay UCLA Staff Affirmative Action Program, Participant
- In Service Classes:
 Excel, Level 3
- David Scholl In Service Classes:
 LAN Systems Manager Class
- Mark Taylor In Service Classes:
 Excel, Level 1
- LSA Tour: Los Angeles Public Library
